INDEX, VOLUME 16, 1962

Abbreviations: **A.** = abstract; **Art.** = article; **B.R.** = book review

Agricultural Development in Monsoonal Northern Australia. G. A. Stewart. Art. 161
Algal Classification—An Aid to Improved Industrial Utilization. L. Stoloff. Art. 86
Allard, R. W. Principles of Plant Breeding. B. R. 45
Altschul, A. M. Seed Proteins and World Food Problems. Art. 2
Amerine, M. A. and W. V. Cruess. The Technology of Wine Making. B.R. 131
Amino Acid Production per Acre by Plants and Animals. J. H. MacGillivray and J. B. Bosley. Art. 25
Analyses of Seed Samples from 113 Plant Families. F. R. Earle and Q. Jones Art. 221
Anatomy of the Monocotyledons. II. Palmae. P. B. Tomlinson. B.R. 319
Anbau und Verwertung con Süsslupinen. J. Hackbarth and H. J. Troll. B.R. 139
Annual Review of Plant Physiology. L. Machlis, ed. B.R. 138
Attack on Starvation. N. W. Desrosier. B.R. 323
Bacterial Plant Pathogens. C. Stapp. B.R. 46
Barclay, A. S. and H. S. Gentry. The Search for New Industrial Crops III. Prospectus of *Lesquerella fendleri*. *Art.* 206
Barclay, A. S., H. S. Gentry, and Q. Jones. The Search for New Industrial Crops II: *Lesquerella* (Cruciferae) as a Source of New Oilseeds. Art. 95
Biological Degradation of Cellulose. J. A. and M. M. Gascoigne. B.R. 141
Bosley, J. B. and J. H. MacGillivray. Amino Acid Production per Acre by Plants and Animals. Art. 25
Braun, E. L. The Woody Plants of Ohio. B.R. 321
Brown, C. L. Commercial Trees of Louisiana. B.R. 139
Carbohydrate Resources Within the Perennial Plant. C. A. Priestly. B.R. 325
Carpenter, P. L. Microbiology. B.R. 137
Christensen, C. M. The Molds and Man. An Introduction to the Fungi. B.R. 47
Coffee: Botany, Cultivation, and Utilization. F. L. Wellman. B.R. 322
Collins, J. L. The Pineapple: Botany, Cultivation, and Utilization. B.R. 138
Commercial Trees of Louisiana. C. L. Brown. B.R. 139
Denevan, W. M. Upland Pine Forests of Nicaragua, The: A Study of Cultural Plant Geography. B.R. 138
Dermen, H. and D. H. Scott. Potentials in Colchiploid Grapes. Art. 77
Desrosier, N. W. Attack on Starvation. B.R. 323
Drug Aspects of the White Sapotes, The. J. F. Morton. Art. 288
Earle, F. R. and Q. Jones. Analyses of Seed Samples from 113 Plant Families. Art. 221
Economic Plants Encountered on the Voyage of the Beagle. J. H. Stone. Art. 116
Elder, A. L. and D. M. Rathmann. Seed Oils in Human Nutrition. Art. 196
Ethyl Corporation. Food for America's Future. B.R. 134
Flagler, M. B. and R. F. Raffauf. Storage and Sorting of Phytochemical Data. Art. 14
Food for America's Future. Ethyl Corporation. B.R. 134
Forest Management. H. A. Meyer, A. B. Recknagel, D. D. Stevenson, and R. A. Bartoo. B.R. 212
Freezing, Preservation and Preparation of Some Edible Wild Plants of Ontario. E. E. Gaertner. Art. 264
Fungi in Oceans and Estuaries. T. W. Johnson, Jr. and F. K. Sparrow, Jr. B.R. 325
Gaertner, E. E. Freezing, Preservation and Preparation of Some Edible Wild Plants of Ontario. Art. 264
Gascoigne, J. A. and M. M. Biological Degradation of Cellulose. B. R. 141
Gentry, H. S. and A. S. Barclay. The Search for New Industrial Crops III: Prospectus of *Lesquerella fendleri*. Art. 206
Gentry, H. S., A. S. Barclay, and Q. Jones. The Search for New Industrial Crops II: *Lesquerella* (Cruciferae) as a Source of New Oilseeds. Art. 95
Germ Plasm Resources. R. E. Hodgson, ed. B.R. 213
Getachew, A. and R. B. Stewart. Investigations of the Nature of Injera. Art. 127
Grass Cover of Africa, The. J. M. Rattray. B.R. 140
Gray, William D. The Relation of Fungi to Human Affairs. B.R. 324
Hackbarth, J. and H. J. Troll, Anbau und Verwertung von Süsslupinen. B.R. 139
Hartman, H. T. Olive Growing in Australia. Art. 31
Heimann, R. K. Tobacco and Americans. B.R. 142
Herbaria: Sources of Medicinal Folklore. S. von Reis. Art. 283
Hesseltine, C. W. and K. Shibasaki. Miso Fermentation. Art. 180
Heterosis in Eggplant (*Solanum melongena* Linn.). C. N. Sambandam. Art. 71
Hodgson, R. E., ed. Germ Plasm Resources. B.R. 213
Horticultural Dictionary in Eight Languages. J. Nijdam, ed. B.R. 47
How Crop-Climate Research Contributes to Cotton Improvement. T. R. Richmond. Art. 217

Humphrey, H. B. Makers of North American Botany. B.R. 320
Industrial Microbiology. A. H. Rose. B.R. 324
Introduction to Soil Microbiology. A. Martin. B.R. 45
Investigations of the Nature of Injera. R. B. Stewart and A. Getachew. Art. 127
Irvine, F. R. Woody Plants of Ghana with Special Reference to their Uses. B.R. 133
Johnson, T. W., Jr. and F. K. Sparrow, Jr. Fungi in Oceans and Estuaries. B.R. 325
Jones, Q. and F. R. Earle. Analyses of Seed Samples from 113 Plant Families. Art. 221
Jones, Q., A. S. Barclay and H. S. Gentry. The Search for New Industrial Crops II: *Lesquerella* (Cruciferae) as a Source of New Oilseeds. Art. 95
Jute in India. B. C. Kundu, K. C. Basak, and P. B. Sarcar. B.R. 133
Klingman, G. C. Weed Control: as a Science. B.R. 136
Krüssmann, Gerd. Die Nadelgehölze. B.R. 215
Kundu, B. C., K. C. Basak, and P. B. Sarcar. Jute in India. B.R. 133
Laticiferous Plants of Economic Importance I. Sources of Balata, Chicle, Guttapercha and Allied Guttas. L. Williams. Art. 17
Laticiferous Plants of Economic Importance II. Mexican Chilte (*Cnidoscolus*): A Source of Gutta-like Material. L. Williams. Art. 53
Laticiferous Plants of Economic Importance III. *Couma* Species. L. Williams. Art. 251
Lawn Book, The. R. W. Schery. B.R. 131
Living Fences in the Fond-des-Nègres Region, Haiti. S. W. Mintz. Art. 101
MacGillivray, J. H. and J. B. Bosley. Amino Acid Production per Acre by Plants and Animals. Art. 25
Machlis, L., ed. Annual Review of Plant Physiology. B.R. 138
Makers of North American Botany. H. B. Humphrey. B.R. 320
Martin, Alexander. Introduction to Soil Microbiology. B.R. 45
McDermid, R. W., ed. The Use of Chemicals in Southern Forests. B.R. 214
Mexican Wild Forms of Sweet Potato. I. Nishiyama and T. Teramura. Art. 305
Meyer, H. A. et al. Forest Management. B.R. 212
Microbiology. P. L. Carpenter. B.R. 137
Mintz, S. W. Living Fences in the Fond-des-Nègres Region, Haiti. Art. 101
Miso Fermentation. K. Shibasaki and C. W. Hesseltine. Art. 180
Molds and Man, The. An Introduction to the Fungi. C. M. Christensen. B.R. 47
Morton, J. F. The Drug Aspects of the White Sapotes. Art. 288
Morton, J. F. Spanish Needles (*Bidens pilosa* L.) as a Wild Food Resource. Art. 173
Nadelgehölze, Die. G. Krüssmann. B.R. 215
Nijdam, J., ed. Horticultural Dictionary in Eight Languages. B.R. 47
Nishiyama, I. and T. Teramura. Mexican Wild Forms of Sweet Potato. Art. 305
Occurrence of Indole Compounds in *Coprinus* Species, The. L. R. Worthen, G. J. Stessel, and H. W. Youngken, Jr., Art. 315
Olive Growing in Australia. H. T. Hartmann. Art. 31
Orange, The: Its Biochemistry and Physiology. W. B. Sinclair, ed. B.R. 213
Phytomorphic Representations of the Ancient Peruvians. C. Vargas C. Art. 106
Pineapple, The: Botany, Cultivation, and Utilization. J. L. Collins. B.R. 138
Potentials in Colchiploid Grapes. H. Dermen and D. H. Scott. Art. 77
Priestly, C. A. Carbohydrate Resources within the Perennial Plant. B.R. 325
Principles of Plant Breeding. R. W. Allard. B.R. 45
Proceedings of the Eighth International Grassland Congress. B.R. 135
Raffauf, R. F. A Simple Field Test for Alkaloid-Containing Plants. Art. 171
Raffauf, R. F. and M. B. Flagler. Storage and Sorting of Phytochemical Data. Art. 14
Rathmann, D. M. and A. L. Elder. Seed Oils in Human Nutrition. Art. 196
Relation of Fungi to Human Affairs, The. W. D. Gray. B.R. 324
Responsibilities and Opportunities of the Taxonomist Today. A. J. Sharp. Art. 49
Richmond, T. R. How Crop-Climate Research Contributes to Cotton Improvement. Art. 217
Rose, A. H. Industrial Microbiology. B.R. 324
Sambandam, C. N. Heterosis in Eggplant (*Solanum melongena* Linn.). Art. 71
Schery, R. W. The Lawn Book. B.R. 131
Scott, D. H. and H. Dermen. Potentials in Colchiploid Grapes. Art. 77
Search for New Industrial Crops, The II: *Lesquerella* (Cruciferae) as a Source of New Oilseeds. A. S. Barclay, H. S. Gentry, and Q. Jones. Art. 95
Search for New Industrial Crops, The III: Prospectus of *Lesquerella fendleri*. H. S. Gentry and A. S. Barclay. Art. 206
Seed Oils in Human Nutrition. A. L. Elder and D. M. Rathmann. Art. 196
Seed Proteins and World Food Problems. A. M. Altschul. Art. 2
Sharp, A. J. Responsibilities and Opportunities of the Taxonomist Today. Art. 49
Shibasaki, K. and C. W. Hesseltine. Miso Fermentation. Art. 180
Simple Field Test for Alkaloid-Containing Plants, A. R. F. Raffauf. Art. 171

Sinclair, W. B., ed. The Orange: Its Biochemistry and Physiology. B.R. 213
Soegeng-Reksodihardjo, W. The Species of *Durio* with Edible Fruits. Art. 270
South Brazil: Its Vegetation, Natural Resources, Research Centers, and Other Economic Aspects. L. Williams. Art. 143
Spanish Needles (*Bidens pilosa* L.) as a Wild Food Resource. J. F. Morton. Art. 173
Species of *Durio* with Edible Fruits, The W. Soegeng-Reksodihardjo. Art. 270
Stapp, C. Bacterial Plant Pathogens. B.R. 46
Steroidal Sapogenins. LXVIII. Their Occurrence in *Agave lecheguilla*. M. E. Wall, B. H. Warnock, and J. J. Willaman. Art. 266
Stessel, G. J., H. W. Youngken, Jr. and L. R. Worthen. The Occurrence of Indole Compounds in *Coprinus* Species. Art. 315
Stewart, G. A. Agricultural Development in Monsoonal Northern Australia. Art. 161
Stewart, R. B. and A. Getachew. Investigations of the Nature of Injera. Art. 127
Stoloff, L. Algal Classification—An Aid to Improved Industrial Utilization. Art. 86
Stone, J. H. Economic Plants Encountered on the Voyage of the Beagle. Art. 116
Storage and Sorting of Phytochemical Data. R. F. Raffauf and M. B. Flagler. Art. 14
Technology of Wine Making, The. M. A. Amerine and W. V. Cruess. B.R. 131
Teramura, T. and I. Nishiyama. Mexican Wild Forms of Sweet Potato. Art 305
Tobacco and Americans. R. K. Heimann. B.R. 142
Tomlinson, P. B. Anatomy of the Monocotyledons. II. Palmae. B.R. 319
Toxicity of Tall Fescue Forage: A Review. S. G. Yates. Art. 295
Upland Pine Forests of Nicaragua, The: A Study of Cultural Plant Geography. W. M. Denevan. B.R. 138
Use of Chemicals in Southern Forests, The. R. W. McDermid, ed. B.R. 214
Vargas C., C. Phytomorphic Representations of the Ancient Peruvians. Art. 106
von Reis, S. Herbaria: Sources of Medicinal Folklore. Art. 283
Wall, M. E., B. H. Warnock, and J. J. Willaman. Steroidal Sapogenins. LXVIII. Their Occurrence in *Agave lecheguilla*. Art. 266
Weed Control: as a Science. G. C. Klingman. B.R. 136
Wellman, F. L. Coffee: Botany, Cultivation, and Utilization. B.R. 322
Willaman, J. J., B. H. Warnock, and M. E. Wall. Steroidal Sapogenins. LXVIII. Their Occurrence in *Agave lecheguilla*. Art. 266
Williams, L. Laticiferous Plants of Economic Importance I. Sources of Balata, Chicle, Guttapercha and Allied Guttas. Art. 17
Williams, L. Laticiferous Plants of Economic Importance II. Mexican Chilte (*Cnidoscolus*): A Source of Gutta-like Material. Art. 53
Williams, L. Laticiferous Plants of Economic Importance III. *Couma* Species. Art. 251
Williams, L. South Brazil: Its Vegetation, Natural Resources, Research Centers, and Other Economic Aspects. Art. 143
Woody Plants of Ghana with Special Reference to their Uses. F. R. Irvine. B.R. 133
Woody Plants of Ohio, The. E. L. Braun. B.R. 321
Worthen, L. R., G. J. Stessel and H. W. Youngken, Jr. The Occurrence of Indole Compounds in *Coprinus* Species. Art. 315
Yates, S. G. Toxicity of Tall Fescue Forage: A Review. Art. 295
Youngken, H. W., Jr., L. R. Worthen, and G. J. Stessel. The Occurrence of Indole Compounds in *Coprinus* Species. Art. 315

ECONOMIC BOTANY

Devoted to Applied Botany and Plant Utilization

Founded by

Edmund H. Fulling

Publication of The Society for Economic Botany

VOLUME XVI

1962

Published for The Society

by

THE NEW YORK BOTANICAL GARDEN

Printed by

Monumental Printing Company

Baltimore, Maryland

CONTENTS

News of The Society for Economic Botany 1
Seed Proteins and World Food Problems 2
Storage and Sorting of Phytochemical Data 14
